CALCIUM CARBONATE – PurCal

This is a high purity calcium carbonate with very low trace metals. It is produced without chemical additives, purification or modifiers. It can be used in pharmaceutical and food applications, and it is certified Halal and Kosher.

Typical Properties:

- Median Size: 4 – 20 μm
- D99 top cut: ≤ +50 μm
- MAG & Alkali Salts: < 2.5%
- CaCO₃: > 98%
- Loss on drying: ≤ 2.0%
- Acid insoluble: ≤ 1.0%
- Heavy metals: ≤ 20 ppm
- Fluorides: ≤ 0.005%
- Lead: ≤ 0.4 ppm
- Arsenic: ≤ 0.3 ppm
- Aerobic plate count: < 3,000 CFU /g
- Yeast and mold: < 10 CFU / g
- Total coliforms: < 10 CFU / g

Packing:

- 50 lb multiwall bags
- Supersacks 1,000 or 2,000 lbs
- Bulk
