CLAYS & KAOLINS FOR COSMETIC MANUFACTURING

Quality raw materials for use with fine cosmetic,
skin care, beauty and personal care products

ROSE CLAY	Pink - used in face masks and color cosmetics.
SEA CLAY	Gray / Gray-green - mined from deposits originally under an ancient ocean. This clay is rich in iron, aluminum, potassium, and calcium – properties deemed essential for overall well-being. Ideal for masks, muds, clay baths, exfoliator products, soaps, scrubs, and other skin purifying applications.
RHASSOUL CLAY	Yellow / red - rich in iron, aluminum, and potassium it is quite suitable for masks, muds, clay baths, soaps, scrubs, and other skin purifying applications.
MOROCCAN RED CLAY	Red / Yellowish - suitable for use in mud therapies, facial masks, color cosmetics and soaps.
ZEOLITE	Green - capable of odor absorption, ion exchange, and ammonium removal. It has many cosmetic and personal care product applications including mild scrubs and as a cleansing agent for absorption.
BENTONITE CLAY	Gray / off-white – often referred to as a healing clay. In skin applications it is believed to absorb toxins and poisons.
LION KAOLIN	A washed, soft, white kaolin for those requiring a high purity raw material.
DIAMOND KAOLIN	A kaolin with consistent mineralogy. Suitable for cosmetic and pharmaceutical applications.

PLUS WHITE CLAY

This is a white Kaolin manufactured to provide good hiding and good suspension, and other valuable properties to many industries at a reasonable cost.

BLUE CLAY

Blue – made from Kaolin and colored with other minerals such as iron oxide.

GREEN CLAY

Green– made from Kaolin and colored with other minerals such as iron oxide.

PURPLE CLAY

Purple – made from Kaolin and colored with other minerals such as iron oxide.
