A washed, white, soft Kaolin with very low levels of trace elements including low heavy metals. For use in the cosmetic, pharmaceutical, and other high purity, human consumption industries.

**CHEMICAL ANALYSIS**

- Silica (SiO₂) 47.0%
- Alumina (Al₂O₃) 37.0%
- Loss on Ignition 12.1%
- pH 5.0

**PHYSICAL ANALYSIS**

- Brightness 82.5
- Yellowness 5.2

**Particle Size Distribution:**

- Over 50 Microns 0.05% max
- Over 10 Microns 15.0% max
- Under 2 Microns 45.0% max

- Oil Absorption 38g / 100cc
- Specific Gravity 2.6

**PACKING:** 25 kg multiwall paper bags.

**ORIGIN:** England
